

The Sustainability Education Roundtable is an informal, broadly based forum open to all who share a commitment to a comprehensive, integrated approach to education for sustainability. We believe in developing stewardship values, behaviours, and lifestyles in Victoria through sustainability education.

The round table working group is chaired by Mike Hill and hosted by CERES and includes participation from Department of Sustainability and Education, EcoRecycle Victoria, EPA, Environment Victoria, Gould League, LeastWaste, Maunsell, VAEE, Victoria University, and Western Region Environment Centre.

- # 1 – Health Appraisal of Environmental Sustainability Education by Sector.

This Roundtable is particularly important. It will finalise some major recommendations to be sent to senior ministers. This could help shape Sustainability initiatives in Victoria over many years. You and your organisations are important 'Voices of People.' Let us hear these voices on February 22nd at the Museum.

The Roundtable will seek your views on how to improve the 5 sectors (see "Health Appraisals" attached). This is based on your contributions so far. You will be asked to focus on your main sector of interest and help create a short list of 5 smart ways (strategic, measurable, achievable, realistic, target-based) appropriate to the urgency of the challenge. Furthermore, you will be encouraged to commit to actions and further planning in order to connect your organisation and your own energy to the unfolding opportunities provided in 'Learning for Sustainability.'
