

Our Communities in 1/2

In 1/2 we have been discussing and learning about the groups we belong to within our community.

We created a community circle representing the various groups within our community beginning with our families and friends, then our school and teachers and finally our wider community.

To further investigate our local school community, we explored our environment and identified ways we can have a positive impact on our community.

The 1/2 students thought of a range of actions and initiatives we can undertake.

This includes our participation in the upcoming **Clean Up Australia Day on March 3rd**.

Some things the children will look forward to in the future are seeing an increase in butterflies, a decrease in rubbish in the yard and everyone taking responsibility for our beautiful school community.
