

AT HOME WATER AUDIT

BRAINSTORM WHAT USES WATER AT YOUR HOUSE, BOTH INSIDE AND OUTSIDE. RECORD YOUR ANSWERS BELOW OR CREATE YOUR OWN MIND MAP!

--

TAPS

Count how many taps you have at home (Including front and backyard)	
How many of these taps are dripping?	
What kind of drips do you notice? (circle which ones)	DRIP / STEADY DRIP / TRICKLE / STREAM

TOILETS

Count how many toilets you have at home	
Circle which type of flush they have	SINGLE / DUAL FLUSH
What kind of drips do you notice? (circle which ones)	DRIP / STEADY DRIP / TRICKLE / STREAM

Fun fact : A Single flush toilet has 1 button and uses about 11 litres of water to flush. A Dual Flush toilet has two. The Half-flush button uses about 3 litres to flush. The Full-flush button uses about 6 litres per flush (SA Water)

Are any of your toilets leaking?

EDUCATION

AT HOME WATER AUDIT

WATER TANK

Do you have a water tank at home? If so, how big is it?

What do you use your water tank for?

GARDEN

Do you have drought tolerant or native Australian plants in your garden? What are they?

Are your garden beds mulched to save water?

Do you collect water from your sinks or shower to use on your garden?

WATER SAVING

Do you have any of these water saving appliances/attachments, some might have water saving stars on them (circle which ones)

SHOWER HEAD /
DISHWASHER / WASHING
MACHINE / HOSE NOZZLES /
TIMED WATER SYSTEM /
DUAL FLUSH OR
COMPOSTING TOILETS

Ask your parents to have a look at your families water bill. How much water has your family used in the past 3 months?

Is this amount higher or lower than the previous bill?
