

RESOURCESMART SCHOOLS

APPLY FOR FUNDED FACILITATOR SUPPORT

Attention all primary and secondary schools in the Northern and Southern metro Melbourne regions.

Funded spots are available for schools interested in working through ResourceSmart Schools, an award-winning Victorian Government program that assists schools to embed sustainability in everything they do.

Over 1500 Victorian schools have participated in ResourceSmart Schools since 2008, and here is an opportunity for your school to start or re-engage in the program guided by the support of a CERES School of Nature and Climate educator.

As part of this funded support, schools will receive the following:

- support from a facilitator to help your school progress through ResourceSmart Schools
- consultation for your Green team
- whole staff workshop
- access to free professional learning workshops
- updates via regular newsletter and communications
- online tools and resources to support module and Star progression
- assessment of each module and/or Star upon completion
- unlimited phone and email support
- discounts/special offers on other education programs available at CERES Community Environment Park.

To be considered for a funded spot, please click on the link below to complete our online expression of interest form:
